

**FELINE CONGRESS AMSTERDAM 2010**  
**EVDS WET LABS**  
**Travelling Information**

Dear Delegate

I am delighted to confirm travel details on how to reach Utrecht University to attend our Wet Lab sessions which you have previously booked. I have taken the liberty to enclose the delegate list so that you can see the names of those attending with you and to also confirm your attendance in each session. Should anyone have any queries please do not hesitate to contact me direct on: [conferences@fabcats.org](mailto:conferences@fabcats.org)

**Travel ticket collection**

Travel information is detailed below and all tickets will be available in separately addressed envelopes for each of you and you will be able to collect them from the Krasnapolsky reception/concierge from 5pm on Wednesday 16 June.

For those attending the morning session that would like to travel together I would suggest that you meet in the Krasnapolsky Reception at 7.30am and walk as a group to the central station in Amsterdam. For those attending the afternoon session only and would like to travel with other delegates attending the same session, I would suggest that you meet at 12 noon in the Krasnapolsky Reception.

Should any of you have any queries or questions I will be at the Krasnapolsky from 3pm on Wednesday 16 June and will make sure I am available from 8am in the hotel reception for anyone travelling in the morning and again at 12pm for anyone travelling to the afternoon session.

The full address of the University of Utrecht is:  
Pzg 4 and Pzg 5 (pzig is short for "practicumzaal gezelschapsdieren" which means practicum hall.)  
Faculty of Veterinary Medicine, Medicine of Companion Animals  
Munster Avenue 7  
3584 CP Utrecht

More travel by public transport, visit [www.9292ov.nl](http://www.9292ov.nl) (English site available)

***Room 1 (09.30 – 12.30)***

**Radiology, periodontal examination and periodontal treatment**

Basic level

Tutor: Philippe Hennet

***Room 2 (09.30 – 12.30)***

**Palatal surgery**

Advanced level

Tutor: Margherita Gracis

*Surgical treatment of congenital and acquired hard and soft palate defects and oronasal fistulas using mucogingival flaps and other techniques*
